NOTES ON J.I.C. 495/D
(Intelligence Adviseement to JTF-3)

1. General Quesada (JTF-3) made almost identical requests to both CIA and General Cabell.
2. CIA has the study well under way and has already made a preliminary response, while the request to General Cabell has been referred to the Joint Intelligence Committee and work is just now being organized.
3. Both CIA and JIC consider the problem to be one which will involve all agencies of the IAC, and that, therefore, the CIA is the appropriate controlling agency.
4. To the best of our knowledge the staff of JTF-3 is not fully informed as to which, if any, of the intelligence agencies are actively engaged on the problem. We understand that JTF-3 is making its own study.
5. In General Cabell's memorandum to the JIC he requested recommendations as to the procedures which should be adopted by the JIC members to fulfill the intelligence requirements of JTF-3.
6. The JIC recommends that J.I.C. 495/D be withdrawn, and:
 - a. That CIA act as controlling agency in the preparation of responses to JTF-3.
 - b. That the members of the JIC act independently through their respective agencies rather than as a committee in meeting the intelligence requirements of JTF-3.
